The Albany YMCA instruction program starts Saturday, Sept. 14 at the Albany High School pool, Portland and Pomona Avenues. To just be able to swim is not quite good enough for the "Just being able to swim swimmer" is not aware of endurance or survival efforts when an incident occurs.

The YMCA instruction swimming program is directed toward instructing beginners to accomplish some water skills and confidence. In completing the Beginners' requirements the Beginners are advanced to Low Intermediate where they are instructed in the American crawl, elementary crawl, back stroke, breast stroke and diving. To complete the Low Intermediate the swimmer must be able to swim 100 yards any two strokes reasonably good.

The High Intermediate prepares the student for Life Saving and Water Safety in that as well as emphasis being placed upon the strokes mentioned above, the butterfly stroke with the dolphin kick is being taught.

Water survival through bobbing, treading and floating; jumps or diving from the three meter board and good dives from the one meter board, as well as a 440 yard swim are among the events required for the completion of this phase.

The Life Saving and Water Safety course requires 25 hours of practice theory and examination upon satisfactory completion the student is presented with certificates from the National YMCA, American Red Cross, Boy Scout and Girl Scout.

Junior Life Saving age requirement is 12 to 14 — the Senior Life Saving requirement age is 15 years and over.

Proclamation Albany Parlor Golden Gaters Win Top Prizes

WHEREAS, The Albany Pre-School has been in operation under the sponsorship of the Albany Recreation Department since July, 1937, and

WHEREAS, The need for the Pre-School is clearly indicated by an increase in attendance from 15 in 1937 to 70 in 1957, and

WHEREAS, The Albany Pre-School Mothers have so unselfishly given their time in service to organizing children at an age when social living begins, and providing a favorable environment and formulating the essential training so necessary to a successful and useful life,

NOW, THEREFORE, In order to better acquaint our citizens with the Pre-School Program and to celebrate the 20th Anniversary of the founding of the Albany Pre-School, an Open House will be held from 1 to 4 p.m. on Sunday, Sept. 15, at 850 Masonic Avenue, and

I, LEWIS M. HOWELL, Mayor of the City of Albany, do hereby proclaim Sunday, Sept. 15th as "ALBANY PRE-SCHOOL DAY" and invite all our people to visit the Albany Pre-School and join in this 20th Anniversary celebration.

LEWIS M. HOWELL, Mayor.

National Civil Defense Week Set for Sept. 15

The White House has designated September 15-21 as the second annual National Civil Defense Week. In last year's observance, every State and Territory participated. Federal departments, State and municipal governments took the opportunity to show their state of civil defense readiness.

The 1957 observance, with the theme — "Government in Emergency" — will give these same agencies a chance for self-evaluation, a period of determining just how much progress has been made in a year's time in their preparedness for disaster.

In the past 12 months, there have been great advancements in weapons development. It is no secret that an all-out attack on the United States would destroy not only a great number of cities, but also inflict heavy damage on rural areas, and spread radioactive fallout to contaminate thousands of square miles.

While this is a most gruesome picture, it is not complete unless one were to consider the natural disasters such as floods, hurricanes, and tornadoes which occur almost daily to tax the resources of government. Each year about 400 small and large disasters are reported in the United States.

Man-made disasters and natural disasters are fundamentally alike. And basically, they can best be met by strengthening the organizations we now have on hand. This means that there is an urgent need to continue to build civil defense readiness and capability into existing governments at all levels.

In this respect, the 1957 theme of National Civil Defense Week — Government in Emergency — is most appropriate.

Albany Parlor Golden Gaters Win Top Prizes

FURTHER STUDY ON MEMORIAL LIGHTING

Following a long discussion of a report by City Engineer Wayne McAuley on lighting conditions at the Veterans Memorial Building by the Albany City Council the matter was tabled on the ground there were no funds available to cover the estimated costs. However the council instructed Assistant City Administrator Olson to investigate further and report back to the council.

The city engineer's report estimated a cost of \$415 for lights at the front entrance of the building, with a further estimate of \$200 more to cover installation of a flood light at the rear. Ralph Backwater of the Legion Post told the council his understanding that the city had fixtures in storage for the front lights, and that wiring had been installed at some time in the past. He said the only material needed would be standards for the fixtures and installation labor. It was on this report the council instructed Olson to make a further investigation.

In further action the council approved acceptance of the recently completed reconstruction of culverted cross drains by the Lee J. Immel Company on recommendation of the city engineer.

The council also authorized the mayor to confer with U.C. authorities regarding insurance on the city leased buildings at University Village.

Action on Planning and Zoning Commission recommendations before the council were as follows: Rear yard, side yard and set back for lots 39, 40, Block 5, Regents Park No. 4, was held over to enable the city attorney to check the state law on some points involved. Front set back request for lots 30, 31, Block 15, Regent Park No. 8, 1450 Washington Avenue, was ordered held over one week, for additional information. Set back for lots 5, 6, Block 32, Regents Park No. 6, 1205 Brighton, for garage extension purposes; public hearing set for Sept. 30.

Albany Pre-School Plans Open House Sunday, Sept. 15

Mayor Lewis M. Howell has proclaimed Sunday, Sept. 15, as "Albany Pre-School Day" honoring the 20th anniversary of the founding of the school. An Open House will be held from one to four o'clock at 850 Masonic Ave. Refreshments will be served. The public is invited to attend and members of the Mothers' Club will show visitors the facilities and equipment available for the enjoyment and education of the children. The school, doll house and playgrounds will be open for inspection.

The school was first organized as a Works Progress Administration project but became a co-operative unit in 1942 when WPA funds were withdrawn. The Recreation Department moved to provide funds for the continuance of this worthy project and the city now furnishes quarters and provides a portion of the director's salary with mothers of attending children contributing the remainder in the form of dues.

As a co-operative venture, mothers of children attending the Pre-School are required to participate three hours every two weeks and attending evening classes designed to help them in undertaking the problems of pre-school children. Each family also donates six hours during the yearly work week. A constant upkeep of equipment is necessary and a major rejuvenation is done at that time.

Mrs. Nell Curran, the present director, has been with the school since 1941. Her assistant, Mrs. Alyce Hoffiger, was originally a participating mother. Two three-hour sessions are held daily from 9 to noon for the 2 and 3 year olds and from 1:30 to 4:30 p.m. for 4 and 5 year olds. Under supervision, the children enjoy free play periods with equipment geared to development of mind and body.

Mrs. Stewart's class will also be taught Spanish phrases correctly pronounced. While attending Fall and Winter classes at the University of Mexico she studied Spanish in addition to the history of Mexican culture.

The Albany teacher studied under Professor Maria Caso, head of the department at University of Mexico and the daughter of the late world-famous philosopher Antonio Caso.

Mrs. Stewart lived in the homes of Mexican families where she had an opportunity to converse in Spanish. In addition to visiting grade school classes in the city and villages, the American was entertained by a Mexican general and his wife who was a classmate of Mrs. Stewart's at the University of Arizona.

Cornell's sixth graders will enjoy color slides of Mexico, Hawaii and Canada which Mrs. Stewart photographed. This should add much zest to their study of their basic book, "Living in Latin America" along with "Neighbors in Latin America and Canada" and "Luis of Guadalupe."

C. S. teachers are encouraged to live and study in other lands in order to promote world peace and to gain personal knowledge of the people for the benefit of their pupils.

Most valuable player offers valuable advice about Savings Bonds!

Mickey Mantle's big bat won him the American League's Triple Batting Crown last year and unanimous choice by the nation's sports writers as his league's most valuable player.

This young Oklahoman figures to have many more great years in the majors, but already he's looking beyond his playing days, planning for his family's future with regular savings.

Mickey says, "From personal experience, I know that the guy who comes through regularly means the most to himself and his team. I've learned the same lesson about savings. Buying U. S. Bonds regularly helps win the game of security."

"Millions of sports fans can be star players in the game of security by joining and staying on Payroll Savings where they work."

Good advice for the long haul from a long ball hitter.

For most of us, Payroll Savings offer the easiest, surest way to save. And the time to start is now. All you do is sign the application form in the payroll office where you work. Select the amount to be set aside for your Bonds each payday. Then your saving is done for you. And each time you've accumulated enough, a Bond is purchased in your name.

You keep adding to your Bonds through Payroll Savings and your Bonds keep earning interest for you. It's a sure way to make a little deduction add up to a lot of security.

So don't put off saving another day. Sign up for Payroll Savings where you work—today. Or start buying Bonds regularly where you bank.

Part of Every American's Savings Belongs in U. S. Savings Bonds.

CHRISTIAN SCIENCE

The rewards of active gratitude to God will be brought out in the Lesson-Sermon on "Substance" at the Christian Science services Sunday at 533 San Pablo Avenue in Albany.

Readings from the King James Version of the Bible will include the following (1 Timothy 6:17): "Charge them that are rich in this world, that they be not high-minded, nor trust in uncertain riches, but in the living God, who giveth us

richly all things to enjoy." Correlative passages from "Science and Health with Key to the Scriptures" by Mary Baker Eddy will include the following (79:31-32): "Giving does not impoverish us in the service of our Maker, neither does withholding enrich us." The Golden Text is from Hosea (12:6): "Turn thou to thy God: keep mercy and judgment, and wait on thy God continually."

"They Didn't Know They Were Teaching," is the sermon topic of the Rev. Douglas H. Henderson at the duplicate morning worship services to be held at 9:55 and 11 a. m. this Sunday. This will also be Recognition and Consecration Sunday. Every teacher and officer of the church and its organizations will be recognized in a special service of dedication to be held as part of the

FAN BELT IMPORTANT
T. F. Hill on an automobile is an important item, yet it is often neglected. Unless the modern V-shaped fan belt used on most cars is adjusted properly, it may fail prematurely. On some cars the fan belt is required to drive the fan, water pump, generator and even the power steering pump and air conditioning compressor. The fan belt should be checked for correct adjustment at frequent intervals by a competent mechanic, says the California State Automobile Association, and a spare belt should be carried in the car.

TIRE LIFE

Premature wear of automobile tires is caused by underinflation, overinflation, unbalanced wheels, defective brakes, and misaligned wheels. The motorist who guards against these neglected points, says the California State Automobile Association, may add many thousands of miles to the life of his car's tires.

LARGEST EXPORT MARKET

Venezuela was the largest export market for United States motor vehicles in 1955, reports the National Automobile Club. More than 44,000 vehicles were shipped to that country.

Introduces New "Catastrophe" Auto Accident Medical Protection

According to this agent, new Major Medical Expense protection, coverage against uninsured and "hit-and-run" drivers, reimbursement for expenses and lost wages due to court appearances, and "out of country" coverage are just a few of the more than 44 "Star Feature" extras in a brand-new State Farm Mutual auto insurance policy. Designed to give the broadest coverage in State Farm history, the new policy offers the extra protection modern motorists need in today's hazardous traffic. New-Fashioned Welsh Rabbit

Here's a recipe that's destined to make smart cooks famous—Welsh Rabbit Pie. Like the famous Welsh Rabbit, that's traditionally served in an "au gratin" dish with toast points, it combines cheddar cheese with ale or beer and zesty seasonings. But, unlike the historic version, it's baked in a pastry shell. Served in pie-sized wedges, with an accompanying green salad, it's ideal for an informal luncheon or supper menu. In thin slices, it's perfect as a pre-dinner appetizer or late-evening snack. In either case, beer is the obvious and best beverage choice.

Welsh Rabbit Pie
19-inch unbaked pastry shell 3/4 cup ale or beer
18-ounce package natural 1/2 cup light cream or milk
Cheddar cheese, grated 1/2 teaspoon salt
1 tablespoon flour 1/2 teaspoon dry mustard
Dash of cayenne pepper

Chill pastry shell. Distribute cheese evenly in shell. Sprinkle with flour. Beat together eggs, beer, milk and seasonings. Pour mixture over cheese. Bake at 425 degrees (hot oven) 15 minutes. Reduce heat to 300 degrees and bake 40 minutes longer or until silver knife inserted in center comes out clean. Cut into wedges and serve with ale or beer. Makes 6 main-course or 20 snack-size servings.

moved a plank from under his house and propped it against the wall under a rear bedroom.

Police were unable to lift any fingerprints because the surfaces were of the wrong type.

Mrs. Richard Hauck, 1027 Curtis, informed police about an hour later that she thought a prowler was in her backyard. This is the third incident of prowling at the Hauck home and police are keeping a close watch.

Saturday at 5:24 p.m. a false alarm was turned in from the fire box at Buchanan and Madison. Witnesses reported two young sailors were responsible, both walking west on Buchanan. The navy men were brought to the station but released without charges being filed.

Having won a first prize for three consecutive years, the members of the post are anxious to see this year's float, which promises to be something special.

Albany Senior Citizens, many who have returned from happy vacations, are busily planning many activities for the fall and winter

season. On the agenda for Tuesday, Sept. 17, members will participate in a trip to Alum Rock Park, where they will hold a picnic. Bus will leave Albany Recreation Center, 850 Masonic Avenue, at 9:30 a.m., each person providing their own lunch and thermos of coffee. All reservations must be made in advance.

His topic is "The Story of Our Churches, Working Together", which he will illustrate with slides. Mrs. H. E. Blatch, auxiliary president, will preside at a brief business meeting following the program.

After two months of vacation the Albany High Twelve Club will take up its regular weekly luncheon meetings at the Red Barn, Friday, Sept. 13. President Walter L. Holland will drop his gavel 12:12 p.m. to take up the business of the club where it left off last June.

Their Albany Policewoman mama and Kensington Police Chief papa interrogated the boys on which one began the fight. Neither would admit guilt so their mother said, "Someone must be lying." Sharon wants people to know about Sonoma's new Bank of America building (lower portion). Designed in early California architecture to harmonize with the century-old adobe buildings around the city's Plaza, the bank is on the site of the old Union Hotel (inset at left). The hotel was a social rallying point for Sonoma from the time of the Bear Flag rebellion against Mexican rule in 1846.

Women At The Wheel
MOUNTAIN DRIVING—When contemplating a mountain-area trip, it's advisable for women motorists to travel accompanied, suggests the California State Automobile Association. Other useful reminders are: 1) When parked on a grade, cut wheels toward the curb or bank, set handbrake and place rocks under wheels. 2) Sound the horn when rounding a blind curve. 3) Use low gears when traveling on a down-grade.
